SEEELS

LED CYLINDER DOWNLIGHT EMERGENCY

GENERAL DESCRIPTION

This architectural housing design blends well with any environment. All parts are machined from extruded aluminum and can be custom finished at the factory to match any interior design plan.

CONSTRUCTION

- Housing and canopy plate from rugged extruded aluminum.
- Mounts cleanly with standard back plate to wall or ceiling, or direct to j-box for exposed conduit applications, such as unfinished ceilings.
- Standard satin white finish; custom paint or satin anodized finishes are also available.
- Three versions available:
 - BB= Unit equipment with self-contained battery
 - AC= Remote for connection to AC 120/277 emergency supply

ELECTRONICS

- Lamps are connected in parallel. If one lamp fails, one or more lamps will continue in operation.
- Universal 120/277 VAC input for standard battery or AC unit, or 24 VDC input for remote configuration.
- Power supply delivers regulated current and voltage to LED lamps at optimum levels to maximize lamp life.
- Automatic battery diagnostics available for all battery models.

ENERGY EFFICIENT

- Emergency lighting with optional dual function operation for night or security lighting.
- Very low power consumption in optional night/ security mode. The security lighting circuit is independent of emergency lighting and may be switched manually, by an exterior photocell, or other automatic means.
- Over 50,000 hour lamp life in normal use.
- IES photometric data available for all models.

CODES

- Manufactured and tested to UL Standard 924 and NFPA Life Safety Code 101.

WARRANTY

- 5 year total customer satisfaction warranty. For details see product catalog technical data section.

10.2019

SUGGESTED SPECIFICATIONS:

Install SEEELS Series Surface Mount LED down light emergency lighting fixture manufactured by Signtex Inc., available as unit equipment or as a remote device connected to a central battery power source. Upon loss of AC building power, emergency models shall operate for a minimum of 90 minutes in compliance with UL 924 and NFPA LSC Code 101. The unit may be specified to operate continuously for security or night lighting, as required. The battery charger and power supply shall have universal input of 120/277 VAC, with brownout and LVD circuit protection. Auto battery diagnostics shall be available for all models, as specified and shall perform all test functions specified by UL 924 and NFPA 101.
